

# Brake Lever

## Over Center Locking Hand Control

Cablecraft® park brake levers offer superior performance, quality and service life to both the designer and user.

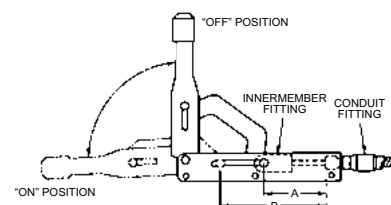

- Two distinct lever positions – Over center and off, which are approximately 90° apart
- No ratcheting to limit travel or secondary unlocking required for operation
- Heat-treated 4130 load link provides durability and reliability
- Adjusting knob allows for setting the initial cable tension, travel, and compensates for system wear
- Adaptable with side or flange mount configurations
- Input lever and side plates have an epoxy finish or electro-static paint, and all other components are coated for corrosion resistance
- Optional tamper-resistant knob to inhibit unauthorized adjustment
- Optional weather-resistant switch at the off position
- Supplied with hardware necessary to attach the cable end fittings to the load link
- Loads of up to 1,000 lb.
- Travel range is 2-7/16" maximum

### Material:

- Nylon covered innermember
- Plastic covered conduit
- Stainless steel

			072	062	1.83	2.47	4.07

1. Dimension A is with the lever in full "OFF" position. Use dimension A in calculating cable length.
2. Dimension B minimum is with the lever in full "ON" position and adjusted for minimum (CCW) travel. Use dimension B minimum during installation and initial adjustment. Turn knob (CW) to add travel and increase brake pressure setting.
3. Dimension B maximum is with the lever in full "ON" position and adjusted for maximum (CW) travel.

# Brake Lever

## Side Mount 165-508-008

2.5 inches (64mm) wide side plates; one cable, with three alternate sets of cable clamp holes. For cowl, instrument panel, seat riser or frame installation.

**Kit B815** — supplied with the following hardware:

- Clevis pin
- Cotter pin
- Washer
- Mounting spacers (2)
- Cable clamp
- Clamp base
- Clamp spacers (2)

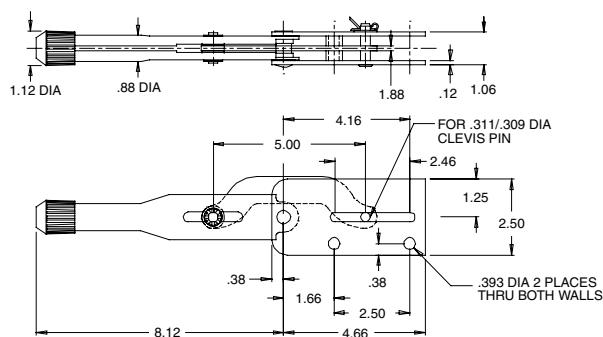

## Side Mount 165-508-009

2.5 inches (64mm) wide side plates; one cable. For cowl, instrument panel, seat riser or frame installation. No cable support.

**Kit B816** — supplied with the following hardware:

- Clevis pin
- Cotter pin
- Washer
- Mounting spacers (2)

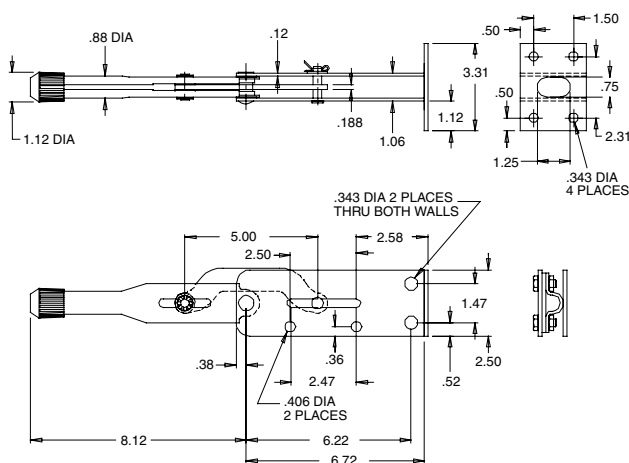

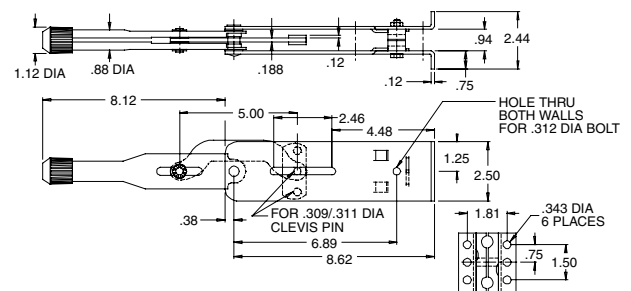

## Flange Mount 165-508-010

2.5 inches (64mm) wide side plates; one cable. For bulk-head floor or island (doghouse) installation. The rigid frame maintains alignment of clevis pin guide slots for improved life of both the pin and side plates.

**Kit B817** — supplied with the following hardware:

- Clevis pin
- Cotter pin
- Washer
- Cable clamp
- Clamp base
- 5/16-24 Bolts (2) nuts (2)

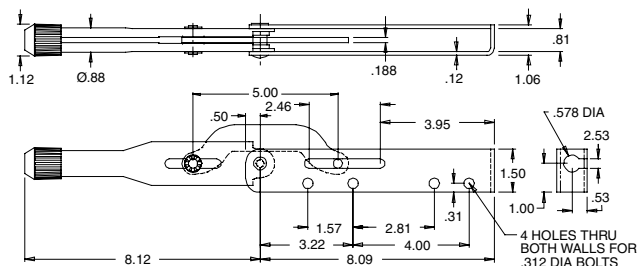

# Brake Lever

## Side Mount 165-508-028

1.5 inches (38mm) wide side plates; one cable.  
For cowl, instrument panel, seat riser or frame installation.

**Kit B837** — supplied with the following hardware:

Clevis pin  
Cotter pin  
Washer  
Mounting spacers (2)  
Cable clamp  
Clamp spacers (2)

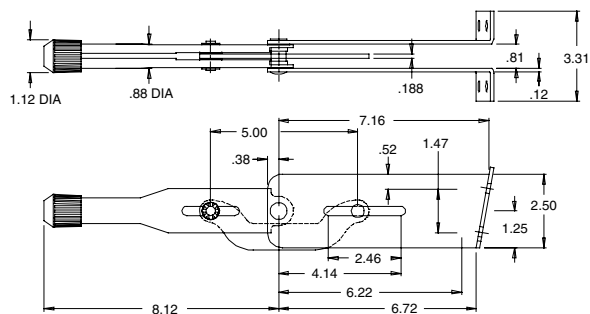

## Flange Mount 165-508-078

2.5 inches (64mm) wide side plates; two cables. For bulk-head, floor or island (doghouse) installation. NOTE: When considering load requirements, the load on the lever assembly will be the sum of the load in each cable. Wing flange mounting.

**Kit B835** — supplied with the following hardware:

Clevis pins (2)  
Cotter pins (2)  
Washers (2)  
Mounting spacers (2)  
Cable clamps
