

# Pull-Only T-Flex Controls

## Pull-Only T-Flex

Cost-effective product range for pull only applications. The inner cable is multi-strand, high-tensile steel and is tinned or galvanized for corrosion resistance. The outer is a flexible conduit comprised of one or two high-tensile steel wires, wound spirally to give maximum compression strength.

**Common Applications:** Clutch cable, throttle cable, hand brake cable, engine stop cable

- Protective covering of polypropylene, PVC, or can be uncoated
- Some sizes can be fitted with high density polypropylene liner for extra smooth low-friction operation
- Can fit a variety of accessory components, available in both UNF and metric thread options
- Wide range of sizes combinations w/loads range of 0 – 2200 lbs.
- Armored strands and solid wires available

**Material:**

- Plated steel (stainless steel optional)
- Pull-only twin-V high compression load conduit, lined and unlined

**Suggested End Fittings:**

- Clevises
- Eye ends
